*Current University of Prince Edward Island computer science major seeking to broaden my work experience within the field of software development by helping produce high quality and maintainable code.*

## Education

---

### Bachelor of Science

Computer Science Major, GPA - 4.2

Math Minor & Co-Operative Education Distinction

University of Prince Edward Island

2015 – 2020

## Relevant Work Experience

---

### Product Management Intern

Feb – Aug 2018

Bosch Sensortec GmbH. Reutlingen, Germany

- Collaborated with a seven person team to demonstrate a new use case for a mobile phone sensor by helping port an existing algorithm onto an Android device. This experience taught me about management in a professional environment, how to collect and store data properly, and the importance of documentation.
- Researched several existing visual inertial fusion algorithms in order to help develop an implementation that used the best aspects from each existing solution.
- Analyzed and compiled documentation about each of the various algorithms and presented them to my supervisor in various degrees of detail.

### Research Assistant

May – Aug 2017

University of Prince Edward Island. Charlottetown, Canada

- Developed research skills in the area of machine learning / neural networks and their ability to learn complex repetitive movements with hopes of developing a physiotherapy or athletic training system. This research showed good potential and resulted in further research projects being completed, with a paper currently being written that highlights the results from my and other students work.
- Researched academic papers on neural networks, and studied various implementations to find one that would best suit our research needs. Worked independently for most of the summer, and compiled and presented what I had been working on to my supervisor several times a week.
- Presented results of this research at a student conference in August 2017.

## Relevant Interests

---

### Running

Sept 2012 – present

- Recreational runner since 2012, competitive runner since 2015
- Member of varsity cross country and track team at UPEI, 2017 cross country MVP

### Data Visualization

Sept 2015 – present

- Reading about different methods of visualizing data is a hobby
- Familiar with the d3.js library

### Problem Solving

Sept 2017 – present

- Member of UPEI's competitive programming team, competed at 2018 ICPC regionals
- Solved various programming problems as practice leading up to event

## Programming Languages

---

<b>Java</b>	<b>2015 – present</b>
<ul style="list-style-type: none"><li>• Very skilled</li><li>• Programming language used throughout my undergraduate degree</li></ul>	
<b>C++</b>	<b>2017 – present</b>
<ul style="list-style-type: none"><li>• Moderate skill</li><li>• Learned through exposure and reading / writing for Android native code base</li></ul>	
<b>Python</b>	<b>2017 – present</b>
<ul style="list-style-type: none"><li>• Moderate skill</li><li>• Used in 2017 for research position, and currently for quick one-off projects</li></ul>	

## Other Skills & Qualifications

---

<b>Git</b>	<b>Sept 2016 – present</b>
<ul style="list-style-type: none"><li>• Comfortable with command line interface, GitHub Desktop, and TortoiseGit</li><li>• Manage development of my personal website, jhthompson.ca, with git</li></ul>	

## Scholarships & Awards

---

<b>Killam Fellow from UPEI to Clemson</b>	<b>Aug 2019</b>
The Killam Fellowship Program allows undergraduate students from Canada and the United States to participate in a program of binational residential exchange. This program, administered by Fulbright Canada, is supported by an endowment from the American Killam Trusts, Global Affairs Canada, and the Foundation for Educational Exchange between Canada and the United States of America (Fulbright Canada). (\$5000 USD per semester)	
<b>Ambrose Kwok-Yau Lee of SDU '62 Scholarship</b>	<b>Sept 2018</b>
Awarded to a full-time student proceeding to fourth year who stands highest in third-year Science. (\$1000)	
<b>Bank of Montreal Undergraduate Scholarship</b>	<b>Sept 2017</b>
Awarded to the student entering third year who achieves the highest aggregate in Computer Science based on a full course load in second year. (\$1465)	
<b>Maximus Canada - Deltaware Division Scholarship</b>	<b>Sept 2017</b>
Awarded to a student entering third year of the Computer Science Program who demonstrates innovative thinking, outstanding leadership, and a high achievement in software design and development. (\$1000)	
<b>Mathematical and Computational Sciences Co-op Student of the Year</b>	<b>Sept 2017</b>
Annual "Co-op Student of the Year" awards are given to students who have been nominated by their employers for outstanding performance on their co-op work terms.	
<b>Prince of Wales College Scholarship</b>	<b>Sept 2015</b>
Awarded to the student entering UPEI from a PEI high school who has been judged by the Scholarship Committee to best exemplify PWC's tradition of excellence. (\$2000 per semester)	
<b>Academic All Canadian</b>	<b>2015 – 2019</b>
Awarded to varsity athletes that maintain an 80% average with a full course load.
